## introducing EP-1320 medieval, the world's first electronic medieval instrument.

following the launch for the EP-133 K.O. II teenage engineering introduces the EP-1320 medieval, a middle-ages themed sampler and composer with built-in live recorded medieval instruments, the second release in their EP series.

EP-1320 medieval features hundreds of expertly recorded playable medieval instruments. from strings and bows, to drums, percussion, and foley, all handcrafted medieval instruments have been meticulously sampled and playable across the pads. exclusive to the EP-1320 medieval is the demo mode, a fun way to explore the built-in sounds – perfect for your next banquet, or fete.

featuring 128MB total storage EP-1320 includes 96MB of hardwired medieval sounds and 32MB of user sample storage. take your medieval moments anywhere; sample, edit, compose and perform all in one machine, featuring a built-in microphone for instant sampling, built-in speaker, a powerful high resolution sequencer, multifunctional fader, 7 medieval effects and 12 punch-in 'pocus' exclusive to medieval, pressure sensitive keys, chop, loop and midi sync.

running on 4x AAA batteries, EP-1320 medieval can also be powered via usb-c. the unit comes packaged in a 10" box with a quick start guide and sticker pack. EP-1320 medieval apparel and accessories include a quilted hardcover case, t-shirt, keychain and a vinyl record featuring medieval songs and samples.

### about teenage engineering

teenage engineering is developing the alternative future of consumer electronics, each invention designed to last. from reimagining music-making with the iconic OP-1 portable synthesizer and growing the synth population with the affordable pocket operator series, to rethinking listening with the OD-11 ortho directional speaker and the OB-4 magic radio, they have applied their signature mindset to a new legacy of enduring technologies. their creations have attracted collaborations with well-known artists and brands, sharing in their vision to integrate creativity into the everyday. teenage engineering was founded in 2007 and is based in stockholm, sweden.
